

Special Meeting
MGHA Architectural Committee
Spring Social Event
April 29, 2018
6:30 PM

Members available:

Wayne Carney, Marlin Roseland, Dave Bonde, and Gary Grittner.

Because of the MGHA Spring Social, Committee members available to discuss two issues:

- 1) Dog kennel area for Doug Day, 105 Jamieson Drive.
- 2) Additional fishing dock for Darrel and Wendy Reinke.

Following discussion on a plan submitted for construction of a dog kennel for Doug Day, Wayne moved and Marlin seconded to approve the project. Motion carried on a voice vote.

Darrel Reinke had submitted a plan for a second fishing dock to be added to his property. Wayne moved and Marlin seconded to approve the project. Motion carried on a voice vote.

Marlin raised a question of a requirement for a sediment barrier to be erected on the Cathy Sonnenschein property where excavated soil has been piled near the curb. Any rain amount will cause soil to erode into the gutter and eventually into the canal. Bonde followed up with City of Fort Pierre staff as to City Ordinances that may require the extraction of sediment barriers; there are no such ordinances. Sonnenschein has been contacted and she said she would contact her contractor to put up a sediment barrier. Barrier was installed 4/30/2018

Meeting adjourned at 6:50 PM.
